

The use of piezoelectric plates and various stones for
treating patients

P.N. Kim

(Medical center "Medsan", Moscow, Russia)

For treatment, piezoquartz plates with a thickness of 0.2 and 0.3 mm or plates of stones are used. They record BR drugs, induction programs and individually selected effective homeopathic remedies. The duration and frequency of the session are selected according to ART.

Examples of

1. Patient L., born in 1988, applied on 05.02.2006 for strong headaches, nasal congestion, sneezing. She was worried about tearfulness, irritability, irascibility, apathy, a sense of insecurity, as well as a sense of fear and disappointment in life. The diagnosis revealed a geopathogenic load of the 4th degree (target organ head) and mental stress of the 5th degree. The cause of the headaches was the displacement of the intervertebral discs in the cervical spine. The cause of nasal congestion and sneezing was an allergic reaction. 33 allergens have been identified in food coloring and food.

The program of "stress" of endocrine regulation, individually selected homeopathic medicines and antiallergens were recorded on a piezoquartz plate. The charged plate was applied 2 times a day for 15 minutes at 12.00 and 23.00. On re-examination on 10.02.2006, the patient was not depressed, her mood improved, she became calmer, the headaches disappeared.

2. Patient K., born in 1966

Diagnosis: Chronic prostatitis, hypospermia, infertility, obesity. Applied on 01.02.2006. Complaints: feeling of fear and self-doubt. The examination with the help of ART revealed a 5 degree mental load. For treatment, a piezoelectric quartz plate was used, then a jade plate 0.5 mm thick for 15 minutes, 2 times a day at 7.00 and 23.00. On the plate was recorded the program of "stress" of endocrine regulation with individually selected homeopathic remedies. The patient notes a noticeable improvement in mood, he became calmer, irritability disappeared, and sleep returned to normal.

From the above, it follows that piezoquartz plates and individually selected stone plates can be used to enhance the effect of treatment.
