

Interiorotherapist®
A.V. Shornikov, E.N. Shornikova (LLC
"KITTIInteriorS", Moscow, Russia)

In our previous reports on phantom tags [1] and "entities in the house" [2], we said that as interior designers we often have to meet with clients for periodic energy-informational "cleaning" of premises (houses, apartments, offices, salons cars), and usually we do it directly on the spot and with the help of our devices of the Center "IMEDIS" "MINI-EXPERT-DT" and "IMEDIS-BRT-A".

But quite recently there was a situation when, due to circumstances, we were not able to go to the client.

However, the client continued to actively insist on urgent "cleaning", and then we decided to create for him with the help of the above-mentioned equipment produced by the Center "IMEDIS" and on the basis of our technique, special bioresonance preparations, which we handed over to the client, having explained in advance how to use them. ...

We have chosen water as an energy-informational carrier, for its unique properties: firstly, water has the highest dielectric constant of all compounds known to us; secondly, water has the ability to "stick" to many objects, that is, to wet them; thirdly, water has another remarkable property - high heat capacity. And most importantly, water is a unique material with energy-informational memory.

Therefore, our preparations were prepared precisely on the basis of an aqueous solution using special harmonizing audio-visual media and some well-known homeopathic remedies (such as, for example, highly potentiated aurummetallicum and cuprum metallicum).

We gave our drugs names, _____ respectively, "INTEREROTHERAPEVT®-1" and "INTEREROTHERAPEVT®-2" (the first one is for the destruction of negative energy-informational states in the premises, and the second one is for the harmonization of energy-informational states in the premises). For preparations, we have provided special plastic spray bottles (sprays).

Below is a brief instruction for use:

1. Take animals and people out of the treated room.
2. While indoors, process clockwise from the entrance corners of the room and all desired surfaces with liquid from the bottle (spray) "INTERIEROTHERAPEUT® No. 1"
3. Leave the room and close the door behind you, which to process liquid from the bottle (spray) "INTERIEROTHERAPEVT® No. 1" around the outside perimeter.
4. After 45-50 minutes, enter the room and treat it with liquid from bottle (spray) "INTERIEROTHERAPEUT® No. 2" (similar to item 2).
5. Leave the room and close the door behind you, which to process liquid from a bottle (spray) "INTERIEROTHERAPEVT® No. 2" around the outside perimeter.
6. You can enter the room after 45-50 minutes.

Of course, the quality of cleaning and harmonization of premises with INTERIERTHERAPEUT® preparations is somewhat lower than that directly equipment of the Center "IMEDIS", but simplicity and mobility allows you to use them almost at any time and at your discretion, which ultimately leads to effective results.
