

Statistical data obtained during work
according to the method of the modified vegetative resonance test "IMEDIS-TEST +" (results of work with
May 2003 to February 2013)

G.Yu. Andreichenko
(Vorkuta, Russia)

In total, during this period, a four-level diagnosis of 1723 people was carried out. By age, the groups were distributed as follows.

In 818 cases, which amounted to 47.5% of the total number of examined, at the fourth level, only psycho-vegetative loads were tested, which could be eliminated with drugs from the Bach Flowers group, Systemic Spiritual Adaptants, MEDPHARMA drugs (Psychosocloads), drugs from GUNA »(Flowerplex) etc. In recent years, there has been a noticeable increase in the number of such patients (Table 4).

In 232 people, which amounted to 13.5% of the total number of those tested, at the fourth level, both miasm and psycho-vegetative loads were determined, which were removed by Vipera 2000 in

in combination with Bach Flowers, MEDFARMA (Psychosocnloads), GUNA (Flowerplex), etc. Moreover, the psychological drug served in this case as a drainage.

All 110 people tested over the past year passed this option.

Considering that each person is a part of a single energy field and, naturally, reflects the state of this field, we can conclude that the general level of human awareness is increasing. An increasing number of people are thinking about who they are, what they can do to change themselves, and what contribution they can make to a single energy organism, of which they are a part. And it pleases!

When analyzing the figures by year, one can clearly see a noticeable increase in indicators since 2007.

Differentiating through the pointers intox 2 and intox 3, the following picture emerged.

TOTAL	31 - 1.8%	1692 - 98.2%	1723 - 100%

Analyzing the diagnostic picture, there is a clear predominance of hereditary burden

(98.2%).

For level 4 therapy, I used the following drugs: Spec. Viper 2000 - 887 cases (53.1%); FM chords - 17 cases (1.0%);

Nosode - 1 case (0.05%); Bach flowers - 162 cases (9.1%); Systemic Spiritual Adapters - 18 cases (1.1%); Psychosocial load "Medpharma" - 68 cases (4.05%); Guna flower plexes - 195 cases (9.1%); Other drugs - 375 cases (22.5%).

After removing the miasms, I conduct therapy for deep mycoses.

A few figures on the results of antifungal therapy. In total, 1,280 people have passed this stage. Resonance frequency therapy was performed in 992 sessions. In 288 sessions, it was possible to remove the fungal infection by choosing a ready-made preparation from the selector.

General statistics on the proposed algorithm. The therapy of miasms was prepared and carried out for 1723 people, of them, 1280 people were treated for deep mycoses, of them, 1089 people were treated for karmic space therapy, of which 1161 people were worked at the atmic level. of them, work was carried out to install a magnetic center, 1098 people, of which work was carried out on KDT 1009 people, 918 of them worked through Vipera D400, of them, work was carried out through radioactive fallout 828 people, of whom work was carried out to level the force fields 789 people, of whom work was carried out through the index of the head foci 734 people, of whom YIN-YANG harmonization was 729 people, of them work was carried out through the Talamus \$ 5. 691 people, of whom 622 people underwent correction of enzyme systems, of which 583 people underwent work through astroprotectors, 538 of them carried out work to remove atopic allergy, 491 of them passed the stage of "finding their way" (Runes), 421 of them passed the stage of "invulnerability" (Bactericidal), of whom the energy state was equalized, (excellent energy state - Ag D200) 376 people, Of these, 315 people passed the stage of "removing the depletion of the immune system", of which 262 people passed the stage of "removing the blockage of adaptation reserves", 207 of them passed the stage of "relieving the stress of the endocrine system", of whom the stage "harmonization of the elements of the Earth" 110 people, 35 of them went through the stage of "removal of endocrine system depletion", 17 of them went through the stage of "restoration of acid-base balance".

Comments on general statistics

For children born after 2000, work with karmic space is usually skipped. Immediately after the treatment of mycoses, work is carried out at the atmic level. Further steps follow the basic algorithm. This explains the numbers: work on the karmic space - 1089 people, work at the atmic level - 1161 people. I believe that children born after 2000 are the future of the planet. They came to this world with fewer psychological complexes initially - the so-called "indigo" children.

Another peculiarity is that if the mother underwent miasm therapy before giving birth, then the work at the atmic level immediately begins in the children born. That is, their physical body is healthy. Therefore, work immediately begins at the level of the soul (see the algorithm). There are already many such children under my supervision. Unfortunately, I did not keep statistics in this direction.
