

Statistical data obtained when working by the method of vegetative resonance test  
"IMEDIS-TEST +" (results of work from May 2003 to February 2015)

G.Yu. Andreichenko  
(Vorkuta, Russia)

In total, during this period, a four-level diagnosis was carried out for 1766 people.

By age, the groups were distributed as follows.

Table 1

age	Up to 1 year	1-10 years	11-20 years old	21-40 years old	41-60 years old	Over 60 years old	Total

The current picture of the dominant miasms is presented in table. 2.

TOTAL	1766	100.0

In 859 cases, which amounted to 48.6% of the total number of those examined, at the fourth level, only psycho-vegetative loads were tested, which were eliminated

preparations from the Bach Flowers group, Systemic Spiritual Adaptants, MEDPHARMA (Psychosocnagglng), preparations from GUNA (Flowerplex), Rostok, etc.

In 232 people, which amounted to 13.2% of the total number of those tested, at the fourth level, miasm and psycho-vegetative loads were also determined, which were removed by Viper 2000 in combination with drugs from the Bach Flowers group, MEDFARMA (Psychosocload) , "GUNA" (Flowerplex) and the like. Moreover, the psychological drug served in this case as a drainage.

In recent years, there has been a noticeable increase in the number of patients in whom only psycho-vegetative loads were determined at the fourth diagnostic level. Solving these problems with drugs from the Bach Flowers, Systemic Spiritual Adaptants, MEDPHARMA, GUNA, Rostok, Rubimed groups managed to remove the autoaggressive program in DNA (see Table 3).

All 19 people tested over the past year passed this option.

Considering that each person is a part of a single energy field and, naturally, reflects the state of this field, we can conclude that the general level of human awareness is increasing. An increasing number of people are thinking about who they are, what they can do to change themselves, and what contribution they can make to the single energy organism of which they are a part. And it pleases!

Analyzing the figures by year, one can clearly see a noticeable increase in indicators since 2007.

Differentiating through the pointers Intox 2 and Intox 3, the following picture emerged.

Table 4

Miasm	Intox 2	Intox 3	Total
Botulism	-	eight	eight

TOTAL	31 - 1.75%	1716 - 98.25%	1766 - 100%

Analyzing the diagnostic picture, there is a clear predominance of hereditary burden (98.25%).

For level 4 therapy, I used the following drugs: Spec. Viper

2000 - 887 cases (50.2%);

FM chords - 17 cases (0.95%);

Nosode - 1 case (0.05%);

Bach Flowers - 165 cases (9.35%);

Systemic Spiritual Adapters - 20 cases (1.1%);

Psychosocloading Medpharma - 68 cases (3.8%);

Guna's flower plexes - 213 cases (12.05%); Other

drugs - 395 cases (22.5%).

After removing the miasms, I conduct therapy for deep mycoses.

A few figures on the results of antifungal therapy. In total, 1,330 people passed this stage. Resonance frequency therapy was performed in 1013 sessions. At 317 sessions, it was possible to remove the fungal infection by choosing a ready-made preparation from the selector.

### General statistics on the proposed algorithm

The therapy of miasms was prepared and carried out for 1766 people, of whom 1330 people were treated for deep mycoses, of them, 1130 people were given therapy for the karmic space, of whom 1258 people were worked at the atmik level, of them, work was carried out to install a magnetic center, 1218 people, of whom work was carried out on KDT 1156 people, of which work was carried out through Vipera D400 1077 people, of them, work was carried out through radioactive fallout 1026 people, of whom work was carried out to level the force fields of 1010 people, of whom work was carried out through the index head foci 950 people, of which YIN-YANG harmonization was 948 people, of them work was carried out through the Talamus Su.e. 912 people, of whom the correction of enzyme systems was carried out 860 people, of whom work was carried out through astroprotectors 823 people, 770 of them carried out work to remove atopic allergy, 728 of them passed the stage of "finding their way" (Runes). 682 of them passed the stage of "invulnerability" (bactericidal), 640 of them have passed the stage of "leveling the energy state", of which 600 have passed the stage of "removal of the depletion of the immune system",

573 of them passed the stage of "unblocking of adaptation reserves", 551 of them passed the stage of "relieving the stress of the endocrine system", 512 of them passed the stage of "harmonization of the elements of the Earth", 484 of them went through the stage of "removal of endocrine system depletion", of which 450 people went through the stage of "restoration of acid-base balance", 423 of them went through the stage of "harmonization of the dominant focus", 388 of them passed the stage of "harmonization of the primary affected organ", 353 of them passed the stage of "harmonization of the meridian with max violation", 317 of them passed the stage of "harmonization of the intestinal cycle", 270 of them passed the stage of "harmonization of hormonal deficiency", 260 of them passed the stage of "harmonization of sensitivity to EMN", of which passed the stage of "harmonization of deficiency disorders. merid. " 193 people, of which 134 people have passed the stage of "harmonization of the five elements", 76 of them passed the stage of "harmonization of the organ - the source of complaints", 30 of them passed the stage of "harmonization of the most affected organ".

#### Comments on general statistics

For children born after 2000, work with karmic space is usually skipped. Immediately after the treatment of mycoses, work is carried out at the atmic level. Further stages - according to the main algorithm. This explains the numbers: work on the karmic space - 1130 people, work at the atmic level - 1258 people. I believe that children born after 2000 are the future of the planet. They came to this world with fewer psychological complexes initially - the so-called "indigo" children.

Another feature is that if the mother underwent miasm therapy before giving birth, then the work at the atmic level immediately begins in the children born. That is, their physical body is healthy. Therefore, work immediately begins at the level of the soul (see the algorithm). There are already many such children under my supervision. Unfortunately, I did not keep statistics in this direction.
